Objective

As a first-semester Information Systems student, I am actively enhancing my skills through various bootcamp, free courses, and e-learning platforms, *especially in web development*. My journey began in high school, where I developed a keen interest in technology and programming. I have engaged in bootcamp for HTML, CSS, JavaScript, Laravel, and MySQL, which have helped me understand fundamental concepts and best practices in web application development.

EDUCATION

SMA PUSAKA 1 JAKARTA / High School IPA /

Jakarta Timur / 2021 - 2024

- Development of a personal website using HTML, CSS, and JavaScript to showcase my work, reflecting my skills in web development and interface design. This project has allowed me to enhance my technical abilities and gain practical experience in creating user-friendly web applications.

NONFORMAL EDUCATION

Laravel Web Development | SanberCode

Jakarta Timur | July 2024 - August 2024

After attending the Laravel bootcamp focused on building a film website, I gained in-depth knowledge of the Laravel framework and skills in web application development. The activities included an introduction to Laravel, setting up the development environment, implementing CRUD functionality for data management, interacting with the database using Eloquent ORM, and designing the user interface with Blade templating. I also learned about data validation and application security. My achievements included the ability to build a simple web application, improved programming skills, practical experience in debugging, and preparation for a career as a web developer, all of which boosted my confidence in tackling more complex projects in the future.
